

OCCUPATIONAL THERAPIST RELAY CODES

MET/Evaluations

(Use the **HT** modifier codes)

Service Type	Service Provided
Evaluation - Low Complexity, 30 min	97165 HT GO OT eval IDEA, low complexity 30 MIN
Evaluation - Moderate Complexity, 45 min	97166 HT GO OT eval IDEA, moderate complexity 45 MIN
Evaluation - High Complexity, 60 min	97167 HT GO OT eval IDEA, low complexity 60 MIN

IEP Participation

(Use the **TM** modifier codes)

Service Type	Service Provided
IEP Participation-Low Complexity	97165 TM GO IEP: OT eval IEP, low complexity 30 MIN (IEP)
IEP Participation-Moderate Complexity	97166 TM GO IEP: OT eval IEP, moderate complexity 45 MIN (IEP)
IEP Participation-High Complexity	97167 TM GO IEP: OT eval IEP, high complexity 60 MIN (IEP)

Therapy

(Use the **TM** modifier codes)

Service Type	Service Provided
Individual Therapy-	97110 TM GO DOS after 09/01/25 IEP: OT Therapy-Individual (IEP)
Group Therapy	97150 TM GO DOS after 09/01/25 IEP: OT Therapy-Group (IEP)
Virtual Individual Therapy	97110 TM GO DOS after 09/01/25 TELE IEP: OT Therapy-Individual (IEP)

Assistive Technology

(Use the **ATD** modifier codes)

Service Type	Service Provided
ATD Neuromuscular	97112 GO ATD-Neuromuscular
ATD Orthotics	97760 GO ATD-Orthotics
ATD Prosthetics	97760 GO ATD-Prosthetics
ATD Wheelchair Management	97542 GO ATD-Wheelchair Mgmt
ATD Self Care/ Home Management	97535 GO ATD-Self Care/Home Mgmt
Sensory Integration	97533 GO Sensory Integration

OCCUPATIONAL THERAPIST CODE DEFINITIONS

MET/Evaluations

Encompasses all meetings, reports, testing and observations completed for the IDEA Assessment. The evaluation should only be reported once, even if the evaluation is administered over several days (one log for all work done). The date of service is the date eligibility is determined (IEP/IFSP mtg). Note: An evaluation must be completed to use this code.

	Service	Definition
Evaluations	Eval-Low Complexity	<p>Low Complexity Evaluation, typically 30 minutes face to face with student</p> <ul style="list-style-type: none"> History – An occupational profile and medical and therapy history, which includes a brief history including review of medical and/or therapy records relating to the presenting problem Examination – An assessment that identifies 1-3 performance defects (i.e., relating to physical, cognitive, or psychosocial skills) that result in the activity limitations and/or participation restrictions. <p>Evaluation includes an analysis of the occupational profile, analysis of data from problem-focused assessment(s), and consideration of a limited number of treatment options. Student presents with no co-morbidities that affect occupational performance. Modification of tasks or assistance (e.g., physical or verbal) with assessment(s) is not necessary to enable patient to complete evaluation component</p>
	Eval-Moderate Complexity	<p>Moderate Complexity Evaluation, approx 45 minutes face to face with student</p> <ul style="list-style-type: none"> History – An occupational profile and medical and therapy history, which includes an expanded brief review of medical and/or therapy records and additional review of physical, cognitive, or psychosocial history related to current functional performance Examination – An assessment that identifies 3-5 performance defects (i.e., relating to physical, cognitive, or psychosocial skills) that result in the activity limitations and/or participation restrictions <p>Evaluation includes an analysis of the occupational profile, analysis of data from detailed assessment(s), and consideration of several treatment options. Student may present with co-morbidities that affect occupational performance. Minimal to moderate modification of tasks or assistance (e.g., physical or verbal) with assessment(s) is necessary to enable the patient to complete evaluation component</p>
	Eval-High Complexity	<p>High Complexity Evaluation, approx 60 minutes face to face with student</p> <ul style="list-style-type: none"> History – An occupational profile and medical and therapy history, which includes an expanded brief review of medical and/or therapy records and extensive additional review of physical, cognitive, or psychosocial history related to current functional performance Examination – An assessment that identifies 5 or more performance defects (i.e., relating to physical, cognitive, or psychosocial skills) that result in the activity limitations and/or participation restrictions <p>Evaluation includes an analysis of the occupational profile, analysis of data from detailed assessment(s), and consideration of several treatment options. Student presents with comorbidities that affect occupational performance. Significant modification of tasks or assistance (e.g., physical or verbal) with assessment(s) is necessary to enable the patient to complete evaluation component</p>
