

INGHAM ISD STRATEGIC PLANNING

OUR JOURNEY BEGINS...

Ingham Intermediate School District is about to venture into a strategic planning process that will chart our course for the next 3-5 years and ensure that the needs of students, families, districts and our community will be met. Over the next few months, we will hold focus groups with key stakeholders to gather needed input for plan development. In addition, we will send an internal staff survey to gather insight from those who cannot attend a focus group.

A steering committee comprised of stakeholders, including community members and business partners, will look at the collective data to help shape our plan for the future.

2016-17 Timeline

- September 20: Steering Committee—First meeting
- October 11: Focus Groups—Elementary, Community and Business Partners, and Board Members
- October 20: Focus Groups—Secondary, Ingham ISD Staff, and Families and Students
- October 26: Focus Groups—Superintendents, Local District Leadership and Ingham ISD Staff
- November 8: Steering Committee meets to review initial results
- November 22/29: Steering Committee meets to disaggregate data, identify themes, construct meaning, and create the organizational aspect of the plan
- December 13: Strategic Plan update provided to the Board of Education
- January—May: Develop department level goals aligned with each other and the Strategic Plan
- September, 2017: Launch Strategic Plan

We are eager to get started exploring opportunities to shape Ingham ISD's future direction. We look forward to working with families, educators, and community and business leaders from across our service area to set the foundation for the next step of our journey.

If you have any questions or wish to participate in a focus group, please contact Barbara Weathers at 517.244.1230 or bweathers@inghamisd.org.

Mission: Creating and enhancing educational opportunities for all learners.

*"A good education is the
greatest gift you can give
yourself or anyone else."*
